

General Notes

UNIVERSITY OF PENNSYLVANIA MEDICAL CENTER

Functional Endoscopic Sinus Surgery

**Dissection Course
July 9 - 11, 1992**

The course will be a full 3-day laboratory course including:

- Formal lectures
- Video presentations
- Informal discussion
- Hands-on laboratory experience

**Fees: Lecture and laboratory series \$1450
Lecture and video only \$500 (Residents \$250)**

The University of Pennsylvania reserves the right to cancel this course.

Course Directors:

**David W. Kennedy, M.D.
Donald C. Lanza, M.D.
Heinz Stammberger, M.D.
S. James Zinreich, M.D.**

For more information, contact:

GLASGOW TEMPORAL BONE COURSES:

39th Course—25, 26, 27 March, 1992

40th Course—7, 8, 9 October, 1992

AT GLASGOW ROYAL INFIRMARY

Tutors: Mr Andrew Baxter, F.R.C.S., Prof. George G. Browning, M.D., F.R.C.S.,
Mr Alastair M. Pettigrew, F.R.C.S.

The courses are primarily designed for otologists in training but they will be of interest to more experienced surgeons. Tutorials on otological techniques and results together with histopathology of the temporal bone will complement the main component of the course which is supervised dissection of the temporal bone.

The courses are approved for training in the U.K.

Further details from:

Mr Alastair M. Pettigrew, F.R.C.S.,
Stirling Royal Infirmary,
Stirling FK8 2AU
United Kingdom.

Tel. 0786 73151 (Ext. 78 401)
Fax. 0786 50716.

FOURTH COURSE ON
ENDOSCOPIC SURGERY OF
THE PARANASAL SINUSES

Universities of Brussels and Cologne

August 26th–29th, 1992

organized by Prof. P. Clement, Brussels,
Prof. E. Stennert und Prof. W. F. Thumfart, Cologne

International Faculty.* Course language English.

Course features intense cadaver dissections (every head high resolution CT-documented), didactic lectures, video tapes and live patient demonstrations. Emphasizes various endonasal sinus surgery techniques by the developers. Held 2 days each in the historique cities of Brussels and Cologne. Ladies program available. Laboratory enrollment limited. Instruments and endoscopic video-sets provided.

Course fees

(lunches, welcome and farewell dinners included):

lectures, live demonstrations and laboratory	—US\$700,-
lectures and live demonstrations	—US\$500,-
Accompanying person	—US\$150,-

THE 3RD OXFORD COURSE IN ENT RADIOLOGY

A two-day course covering all aspects of modern imaging in Otolaryngology, highlighting the new techniques of CT and MRI. The course will be taught by ENT surgeons and radiologists with particular emphasis on informal tutorial teaching.

8/9 May 1992

Fee: £150.00 (some concessions) including welcoming reception, refreshments and course dinner at Weston Manor Park.

Write for application form and details to:

Mrs S. Cook, Academic Secretary
Department of Otolaryngology
The Radcliffe Infirmary
Oxford OX2 6HE

Telephone direct line: 0865 224544 (am only)

THE TWJ FOUNDATION

THE TRUSTEES OF THE TWJ FOUNDATION INVITE APPLICATIONS
for
AN OTOLOGICAL RESEARCH AND CLINICAL FELLOWSHIP
at
THE COLEMAN LABORATORY, SAN FRANCISCO
IN THE UNIVERSITY OF CALIFORNIA
for
SIX MONTHS DURING 1993

The main emphasis will be on research projects in the Coleman Laboratory under the supervision of Professor Michael Merzenich but the holder will also have the opportunity to observe clinical work in the Department of Otolaryngology as the appointment has the approval of Dr Schindler.

Applicants must be Fellows of one of the Royal Colleges of Surgeons and a Senior Registrar in Otolaryngology in an appointment recognized for Higher Surgical Training in the United Kingdom or the Republic of Ireland.

Further details concerning applications should be obtained *now* from:

The Trustees of the TWJ Foundation
Courtlands, 61 Kingswood Firs
Grayshott, HINDHEAD
Surrey GU26 6ER

The closing date for formal applications will be
Saturday, 7th March 1992

BASIC SCIENCE CLASS FOR PART I DLO

30th MARCH – 10th APRIL 1992

This two-week, full-time course includes tutorials, practical demonstrations in Anatomy and Physiology and lectures on subjects appropriate to the Part I examination.

Course Tutor: Dr. K. M. Backhouse, OBE
Course fee: £320 (meals and refreshments *not* included)

For application form apply to:
Administration,
The Institute of Laryngology and Otology,
330/332 Gray's Inn Road,
London WC1X 8EE.
Tel: 071-837 8855 Ext. 4214 or 4218 Fax: 071-837 9279

PRACTICAL REVISION CLASS FOR PART II DLO

11th – 20th MAY 1992

This eight-day, full-time course is for students well advanced in preparation for the part II examination. It includes demonstrations of selected clinical cases, viva voce examinations and lectures on appropriate examination topics.

Course Tutor: Valerie Lund
Course fee: £355 (meals and refreshments *not* included)

For application form apply to:
Administration,
The Institute of Laryngology and Otology,
330/332 Gray's Inn Road,
London WC1X 8EE.
Tel: 071-837 8855 Ext. 4214 or 4218

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'Silence in Court'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSE etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
